Double ended bench grinders - SC 200DGE A

SC 200DGE A (1x230V) Drill grinder with grinding wheel and drill grinding attachment A (6-30 mm)

Uncomplicated grinding

SCANTOOL drill grinding attachments are based on a well-proven grinding method which always results in flawless and accurately ground drill points.

The attachments are pre-set for grinding twist drills, for drilling in steel and iron, with point angle 116-118 degrees and clearance angle 6-8 degrees.

The simplified design ensures that a wide range of different drill sizes can be ground without complicated and time-consuming re-setting. Therefore also unskilled operators can obtain good results.
